

Secure Closure. **Reliable** Pigging. Assured Flow.

PIG LAUNCHER & RECEIVERS

PLR-QC SERIES – QUICK OPENING & CLOSURE TYPE

LINESIG Pig Launchers & Receivers are engineered for safe, efficient and reliable insertion and recovery of pipeline pigs for cleaning, batching, gauging and intelligent inspection operations across oil, gas, petrochemical, water and process-pipeline applications.

SAFE OPERATION

Positive locking prevents opening under pressure

FAST ACCESS

Quick opening closure for frequent pigging

RELIABLE PERFORMANCE

Engineered for demanding pipeline conditions

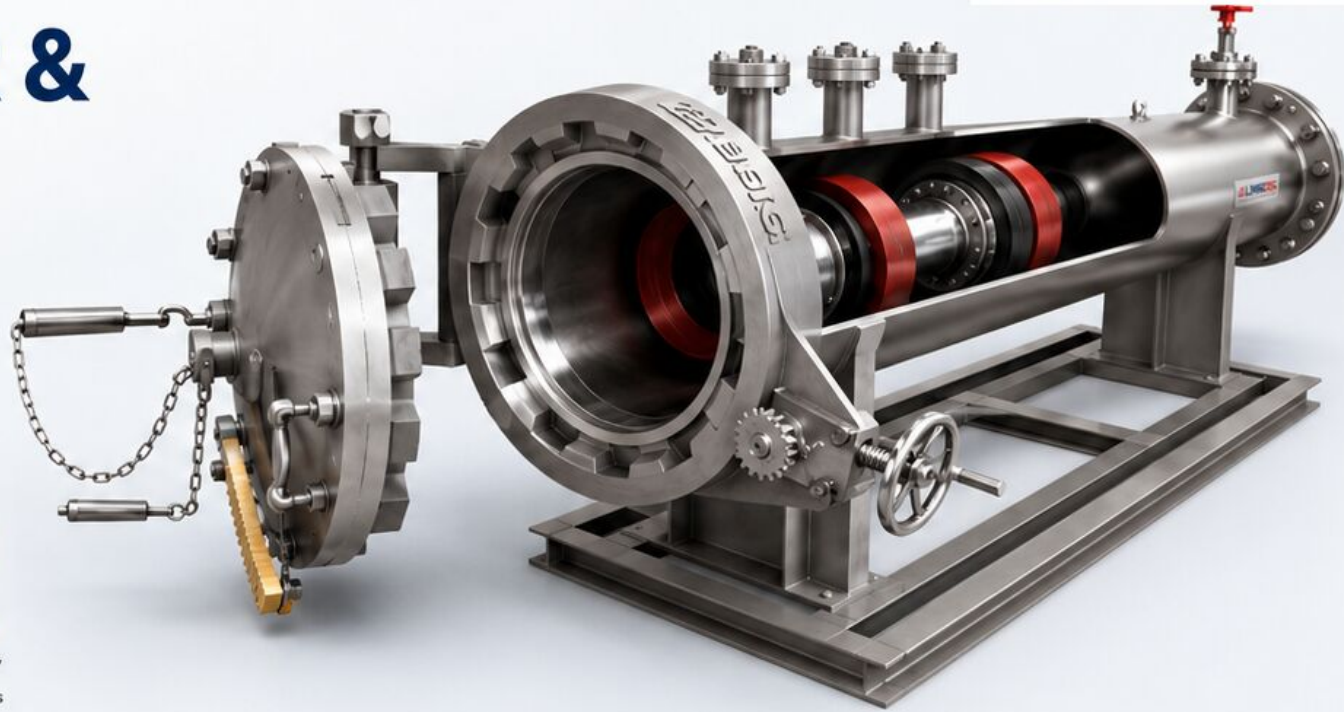

EASY MAINTENANCE

Simple mechanism for inspection and seal replacement

CUSTOM SOLUTIONS

Multiple sizes, ratings and configurations

PIG LAUNCHER (CLOSED)

Launcher in closed position ready for pig insertion.

QUICK OPENING CLOSURE (OPEN)

Quick opening closure in open position for pig loading or removal.

EXPLODED / CUTAWAY VIEW

Exploded view showing quick opening closure, locking mechanism and internal pig.

PIG RECEIVER

Receiver configuration for safe pig recovery from the pipeline.

TYPICAL APPLICATIONS

- Cleaning Pigs
- Batching Pigs
- Gauging Pigs
- Dewatering / Drying
- Intelligent Inspection Pigs

INDUSTRY SEGMENTS

OIL & GAS

PETROCHEMICAL

CHEMICAL

WATER

TERMINALS &
TRANSFER LINES

DESIGN STANDARDS

- ASME B31.4 / B31.8
- ASME Section VIII Div. 1
- API 6D (Closure)
- NACE MR-0175 / ISO 15156
- Project Specific Requirements

QUALITY ASSURANCE

- ✓ Material Traceability
- ✓ Weld & NDT Inspection
- ✓ Hydrostatic Testing
- ✓ Coating Inspection
- ✓ Full Documentation Package

**BUILT FOR
SAFETY.
ENGINEERED
TO PERFORM.**

Efficient Pigging. Pipeline Integrity. Operational Excellence.
